

MEMORANDUM FOR: Colonel White

SUBJECT : Disposition of Problem of CIA's Relation  
to Disbursement of Federal Funds to Mary-  
land and Virginia Public Schools

25X1A

1. [ ] called to advise me today that the Agency's position with Health, Education and Welfare has been established, as a result of a meeting held with Mr. Hurst, in H.E.W., and attended by [ ] from Personnel, plus representatives from the Security Office and the Office of the General Counsel.

25X1A

2. Action taken:

a. Agreement was reached that H.E.W. would accept the figures that they have for this year from CIA employees giving "2430 'E' St., N.W." as their place of employment, as being the total group from CIA. It would have been exceedingly difficult to screen the group again for this year, in view of overseas transfers, resignations and new EODs. However, I understand that Personnel is going to screen the lists H.E.W. has to eliminate any CIA employee who may be working on other than Federally-owned property, since that technicality was a consideration in granting the funds properly.

b. Personnel plans to issue a letter of instructions, over the signature of AD/P, covering the manner in which the forms should be filled out next year (actually, the next year's forms are due for distribution about 15 August, though allocation of next year's funds in this category will not be made until September, 1955).

2. Security and General Counsel concurred in the findings, and you will receive information copies of any subsequent memoranda dealing with this topic.
